Republicans have been the Senators from Connecticut, which has, year after year, cast more Democratic votes than Republican. The Democrats do not rule in Connecticut, and it never be permitted to do so long the Republicans can keep them entrenched behind an apportionment to the minority and is intended to stay.

In the present Connecticut Legislature the Democratic members number 135,640 votes, while the Republicans represent only 73,144 votes. The Democrats have a majority in the lower branch on joint ballot. In 1888 the Democrats had a seven to five majority, and yet they represent nearly half the voters of the State. In the upper branch of the legislature the Democrats represented by 117 Democratic cast 92,235 votes, while the Republicans represented 138,000 votes. to keep two Republicans in the Senate from Rhode Island, which is a small state, and to keep two more for years to keep two Republicans in the Senate from New York, although Democrats are in a majority in the state, they have just stolen one of the seats from the Republicans. Last year they burglarized Montana and took away two seats from the Republicans and two Senatorial seats. This year they gave the privileges of Statehood to Idaho and Nevada, and took away Idaho and Idaho and Wyoming in order to keep two Republicans in the Senate with four more Republicans. They admitted Idaho with no conditions, and they gave them the right to vote on account of religious persecution because the Mormons there are Democrats. They admitted Wyoming with no conditions, and they gave them the right to vote on account of religious persecution because the Mormons there are Republicans.
